

# How to prevent snakebite

**If you see a snake, just leave it alone and it will leave you alone**

**Check before putting your hands or feet into bushes or grass, use a stick**

**Always carry a torch at night, even close to home**

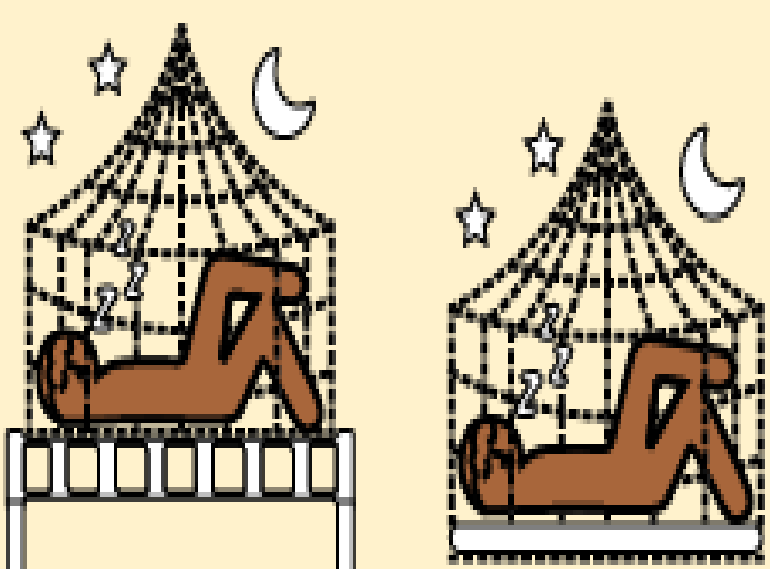

**Keep the area around your home clean and rat free. Snakes love rats**

**Keep pathways clean of leaf litter**

**Use footwear whenever possible**

**Use a tucked in mosquito net when sleeping**
